[redacted]

17-02-2025

Head of Data Protection,
Herefordshire Council,
Plough Lane,
HR4 0LE.

Dear Sir/Madam,

Further to my letter dated **30th December 2024** (copy enclosed), the subsequent visit from a council employee, and your concerning response dated **4th February 2025**, in which you claim not to have received my letter regarding the proposed towing of my vehicle from private land, **I wish to raise serious concerns.**

Your claim is troubling and raises further issues regarding **Herefordshire Council's data protection, record-keeping,** and **internal communications,** particularly in light of your previous breach of **GDPR** and the following:

- **A council employee visited me regarding this matter, referencing my letter.**
- **A large council sticker was placed on my vehicle.**

Given these facts, **I am left to conclude one of the following:**

1. **Herefordshire Council has once again mishandled data, breaching Data Protection laws.**
2. **Council staff have engaged in further unreasonable harassment.**
3. **A fraudulent individual, posing as a council employee with identification, is operating in the area.**

Given this serious discrepancy, along with **your recent breach of GDPR** in deliberately preventing a lawful **Subject Access Request, I insist that you conduct a thorough and prompt investigation** into this matter and provide me with **all relevant records.**

A copy of this letter will also be sent to the Information Commissioner's Office.

Sincerely,

Mr C. Bury

CC: Information Commissioner's Office (Via email)
