Dear Ms Aldred,

Regarding your indifferent response letter of █████ September 2019 (attached) to my request to record and address grievances under the statutory complaints process for adult social care which you refused.

In my opinion, your refusal to record complaints made by family members for or on behalf of their vulnerable relatives is abhorrent and worthy of censure.

Further, I duly note your additional refusal regarding my consideration to meet with my solicitor and social care staff to view and address the concerning audio/video evidence, which was erroneously documented by social care personnel.

Sincerely

C █████ B █████
