

### **C's concern about the limit on B's fluid intake**

32. After I had begun my investigation C raised a particular concern he had about B's fluid intake. He said it was limited to 1½ ltrs a day and he did not think this was right. I asked the Council.
33. The Council asked the deputy manager of H House about this. She told him that in January 2015 B had a routine blood test which showed his sodium levels were low. As a result B's Psychiatrist recommended restricting B's fluids until his
