

**PRIVATE AND CONFIDENTIAL**

Mr. C Bury

Dear Mr. Bury,

I write in response to your letter of 25 January 2022 within which you state:

*I duly note Herefordshire Council staff continue their extended years to surveillance of my web presence and social media, circumventing network and privacy restrictions, and include 'follow' request.*

*Your colleagues' actions and inactions over the years, including concealing neglect, ill-treatment and irrefutable perjury, have not only perniciously and with purpose, destroyed a family but caused significant distress and irreversible harm.*

*I therefore demand copies of ALL authorisations, including RIPA, relating to me, the websites I manage, my web presence and social media, are provided without delay.*

I refer you to my letter of 23 May 2022 in which I advised that

*Herefordshire Council Communications Team monitor publically available information on social media sites and within news articles, which includes comments made about the organisation and its staff members, by members of the public. As this information is in the public domain there is no authorisation process required. The information you have therefore requested is not held.*

I can confirm that our position has not changed and information you have asked for is not held

Yours sincerely,

**Helen Worth  
Information Governance Manager**
