Dear Ms Fletcher,

Thank you for your somewhat evasive response email of 6th March 2023.

Essentially the outcome of the case remains undecided. Therefore as you are the ICO's representative currently handling the complaint, I ask for the following once again.

Please detail what evidence you need regarding the covert directed surveillance besides the already provided proof of dates, information of searches, data collection and sharing of my sites content (while blocked) and social media over at least the past five years, and admittance of investigation without lawful authorisation by Herefordshire Council which would as you say 'categorically indicate' Herefordshire Council flouted or violated DPA or RIPA.

I look forward to receiving your answer and welcome an early reply.

Sincerely

Chris Bury
