Dear Ms Fletcher,

Thank you for your email of 23rd March 2023.

Having read communications between yourself and Herefordshire Council, which indicate you take Herefordshire Council's erroneous statements as truthful and accurate while disregarding factual evidence to the contrary, I ask once again and for a third time, the following:

Please detail what evidence you need regarding the surveillance besides the already provided proof of dates, information of searches, data collection and sharing of my sites content (while blocked) and social media over at least the past five years, and admittance of investigation without lawful authorisation by Herefordshire Council which would as you say 'categorically indicate' Herefordshire Council flouted or violated DPA or RIPA.

Your reluctance to date to answer this simple request implies you approve of local council staff freely spying on victims of their abuses or wrongdoing, notably when said victims have exposed neglect or ill-treatment of loved ones.

I look forward to and welcome an early reply.

Sincerely

Chris Bury
