Dear Sir/Madam,

I note you have willfully ignored my past three request emails, although viewed, for a family home visit for my brother, denying him and us of our right to private and family life.

I suggest that you liaise between Hamilton house and me to arrange a family home visit on 10th March February 2017.

Arrival time for this visit to be [REDACTED], with a departure time of [REDACTED].

I request confirmation of the above via email from your organisation within 24 hours of receiving.

The document named "Hamilton House family home visit restrictions.pdf," previously sent, remains in effect and until further notice.

I suggest that you do not persist in neglecting, denying or restricting my brother's right to visit his family and that abuse of the DoLS order does not continue. Further, he should not be treated less favourably than other residents where arrangements and transport are required.

I look forward to your early reply.

Sincerely

C [REDACTED] B [REDACTED]
